

Mechanical & Electrical Services

Protective Coating Services

Adler and Allan Protective Coatings provide a tough, fast-acting barrier to protect assets and infrastructure investment. These spray coatings are highly advanced, environmentally friendly, fast-acting, efficient and suitable for a wide range of industrial, petrochemical and commercial applications.

Adler and Allan provides high performance solutions for previously unresolved lining and protection problems.

Delivering the ultimate in asset resilience.

Adler and Allan Spray Coatings are made from polyurea and a combination of thermoplastic technologies, the toughest and most durable linings available to our industry. They provide exceptional oil and chemical resistance, are waterproof, safe to use in confined spaces and exceptionally quick to apply and dry on almost any substrate.

Tested to ASTM standards and used successfully in thousands of applications, they will extend the life of your assets, reduce maintenance costs and save money on unnecessary replacements.

- **Extremely fast setting - minutes not days - creating a useable surface within 24 hours**
- **Protects a wide range of construction materials (concrete, wood, metals, glass, foam, plastics, asbestos)**
- **Eco-friendly - low or no solvents or VOC's**
- **Withstands expansion, contraction and a wide range of temperatures**
- **Carbon footprint reducing: longer life products = less waste**

A+A provide 24/7 technical support, backed by experienced and dedicated staff.

Protective coating applications - where can they be used?

Adler and Allan Spray Coatings are suitable for a wide range of applications to your assets across almost every industry. We have over 40 types of coating to meet your specific project needs. Our team of industry experts will work closely with you to provide reliable coating solutions and 24/7 support during works to deliver the right result.

Examples of A+A Protective Coatings

Energy Industry

- Secondary containment liners for oil and chemical spill protection
- Interior and exterior protection of steel and concrete tanks
- Above and below ground pipe and tank encapsulation
- Flood defence linings for bunds and underground assets
- Slip-resistant and corrosion resistant flooring, walls and roofs

Construction and Manufacturing Industries

- Protecting metal structures, bridges, storage tanks and pipes
- Corrosion resistant roofs and slip-resistant flooring and walls
- Waterproofing roofs, decks, walkways and foundations
- Waterproofing and protecting polyurethane, EPS foam and asbestos
- Contaminated water retention for flood defences

Water Industry

- Protection of sewage digesters and clarifying tanks
- Tunnel and sewer manhole preservation and restoration
- Protection of above and below ground pipes
- Secondary containment liners for spill protection
- Slip-resistant and corrosion resistant flooring, walls and roofs

Marine Industry

- Port, shipyard and marina corrosion protection
- Chemical-resistant lining for storage tanks, pipes and cargo areas
- Boat hull impact and abrasion protection
- Slip-resistant deck or floor lining
- Encapsulation of dock floats

Mechanical & Electrical Services

A+A Protective Coating Services

A robust solution for organisations operating in aggressive industrial environments

Expertise in Protective Coatings and Asset Resilience

Our high performance coatings deliver:

- High resistance to oil and chemical spills
- Hazardous material containment
- Protection for the environment
- High performing roof and floor coating
- Exceptional water proofing
- Structure reinforcement
- Energy absorption
- Fire retardancy and flame resistance

24 Hour Environmental Response

The Adler and Allan Group - Leaders in Oil and Environmental Services

Environmental Services

Fast and effective oil spill response. Compliant and efficient waste management solutions.

Specialist Fuel Services

Emergency fuel services where you need it, when you need it. Backed up with impressive fuel quality and transfer capabilities.

Mechanical & Electrical Services

A comprehensive service to tank operators combined with professional oil pollution prevention services.

Forecourt Services

Advanced fuel solutions and professional petroleum engineering for retail forecourts.
